ACKNOWLEDGE

As we understand that the eProject is a step-by-step learning environment that closely simulates the classroom and Lab-based learning environment into actual implementation. It is a project implementation at your fingertips!! An electronic, live juncture on the machine that allows you to:

- ✓ Practice step by step i.e. laddered approach.
- ✓ Build a larger, more robust application.
- ✓ Usage of certain utilities in applications designed by the user.
- ✓ Single program to unified code leading to a complete application.
- ✓ Learn implementation of concepts in a phased manner.
- ✓ Enhance skills and add value.
- ✓ Work on real-life projects.
- ✓ Give a real-life scenario and help to create applications that are more complicated and useful.
- ✓ Mentoring through email support.

We would like to send a great thank you to our professor and other students for the adorable support during the time of the project.

Besides several mistakes we had made in the project, we hope to have more opportunities to widen our knowledge in the web developing world.

We also thank you so much for your information and the “demo” project from India APTECH to help us get more real experience in this project. Since we have gained more experience from this project, we will not stop learning anything as much as we can to be more successful in the future.

Yours Sincerely, Team Group 01.

SYNOPSIS

The objective of this program we aim is to give a sample project to work on real life projects. These applications help us build a larger, more robust application. The objective is not to teach us HTML/JavaScript but to provide us with a real-life scenario and help us create basic applications using the tools.

Hence, we can revise the chapters before we start with the project.

This project is meant for students like us who have completed the module of HTML5. These programs should be done in the Lab sessions with the assistance of the faculty if required.

The website (in this project) is a tool that brings everything in the world to you such as historic monuments, information, knowledge and skill in technology... It is very essential for us to have a clear understanding of the subject. We think we should go through the project and solve the assignments as per the requirements given.

And get back eprojects@aptech.ac.in as the assigned schedule.

ANALYSIS

PROBLEM STATEMENT

TASHA- the home store is a Branded Company famous for home kitchen appliances. It provides a collection of n number of appliances with different categories to match the fast life of the generation. The Tasha group of companies had made huge profits in the year 2013. In order to enhance its business the organization wants you to develop the website.

Requirement Specification:

The Web site is to be created based on the following requirements.

- 1) The Home page must include images with slideshow and links for navigation.
- 2) Proper template must be designed for the website, few sections of the webpage can be included to show or advertise the upcoming products.
- 3) Categories like Cookware, Refrigeration, Appliances, food storage, Knives and tools, Laundry and other accessories
- 4) List such as:

- Cookware:

- i. Cooking pots
- ii. Cooking Pans
- iii. Frying Pans
- iv. Cookware Sets
- v. Handis
- vi. Kadais [Karahi]

- vii. Grill pans
- viii. Tawas
- ix. Egg Poachers
- x. Steamers
- Refrigeration
 - i. Freezers
 - ii. Refrigerators
- Appliances
 - i. Blenders
 - ii. Bread Makers
 - iii. Coffee Makers
 - iv. Ice-Cream and sorbet makers
 - v. Electric Kettles
 - vi. Food Choppers
 - vii. Toasters
- Food Storage
 - i. Flask
 - ii. Spice Jars
 - iii. Storage Bags
 - iv. Lunch Boxes
 - v. Vacuum bottles. And so on

5) Support Link can be added for providing aid services such as

- Manuals
- Expert Tips
- Register Complaint
- Feedback
- Contact

6) Store Locators: must display the address location of all the branches available. Address should be displayed using GeoLocation API (eg. Google Maps).

7) Navigation of the project must be made precise and uniformity must be maintained.

CUSTOMER REQUIREMENTS SPECIFICATION

USER

Input:

- Information on search.
- Data of registered members.
- Feedback to the webmaster.

Process:

- Find the searching
- Check the data of registered members.
- Check the feedback of users.

Output:

- Result of searching.
- Confirm the data of registered members.
- Confirm the feedback of the users

HARDWARE/SOFTWARE REQUIREMENTS

Software:

- Notepad/HTML editor
- Dreamweaver
- IE 5.0/ Netscape 6.0

Hardware:

- A minimum computer system that will help you access all the tools in the courses is a Pentium 166 or better
- 64 Megabytes of RAM or better

ARCHITECTURE AND DESIGN OF PROJECT

SITE MAP

SCREENSHOT

I. Homepage

Homepage displays the following information:

- Slideshow collection, services, and promotions.
- Best seller product.
- Some information about the website.

The screenshot shows the homepage of a kitchenware website. At the top, there is a large image of a kitchen featuring a white TASHA oven built into brown cabinetry, a white stand mixer on a countertop, and a vase with flowers. The navigation bar includes a logo, search, user account, and shopping cart icons. Below the main image, there is a section titled "Feature collections" with two images: one showing a dark kitchen with a "SALE up to 50%" banner and another showing a bright kitchen with a "FREE SHIPPING THIS WEEK!" banner. At the bottom, there is a "Shop Now" section with six categories: SHOP ALL (icon of a kitchen), COOKWARE (icon of a pot), REFRIDGERATION (icon of a refrigerator), KNIFE AND TOOLS (icon of a knife and fork), APPLIANCES (icon of an oven), and FOOD STORAGE (icon of stacked containers).

II. Shop Description

This Product page displays the following information:

- All products that are sold at Shop when clicking on the product, will show the detail of that item.
- Products can be compared with products of the same category.
- Menu filter to easily find items based on Categories
- Product can add to cart, and will popup in navbar.

III. Shop Details

This shop page displays the following information:

- Show the details of that item.
